

ControlWare™

- Turn your PC into a:
1. User interface to the Digital Home
 2. Home automation controller
 3. Player for streamed digital audio/video

ControlWare™ allows you to use your existing computing gear as Digital Home components in addition to their everyday uses. Use ControlWare to add the intelligence of any PC, Media Center, Tablet, UMPC or PDA to your digital home. Now, while web-browsing or emailing, you can control your entire home and media from your PC.

Superna's open architecture and standards support give you more freedom of choice in selecting the best off-the-shelf computing products. With ControlWare, any device with a browser is a Digital Home interface.

The Superna mission is to create standards-based software and hardware products that will make home automation accessible and affordable to everyone. Superna is committed to exceeding the expectations of our customers and to continuing our pioneering spirit by developing the latest products, systems and services. With Superna, everything is under control!™

for VISTA!

Superna
everything is under control

ControlWare™ for Windows XP Media Center Edition®

ControlWare will expand your digital living experience beyond media, by allowing you to control your devices and systems from your MCE TV display. ControlWare also turns your Media Center PC into a home theater controller by connecting devices directly to the USB or serial ports of your Media Center PC. With ControlWare, your MCE remote is the entertainment center portal!

ControlWare™ for PC

Control your consumer electronics devices and systems from your PC/UMPC, or use it to select and stream your favorite audio/video files stored on the network to any network player. ControlWare for PC also turns your computer into a home automation controller when connecting devices via your PC's USB or serial ports. Let your PC do the work - no need for dedicated devices!

ControlWare™ for PDA

ControlWare for PDA allows you to turn your existing PDA into a low-cost interface device for your Digital Home. Using our Windows CE compatible ControlWare gives you even more flexibility and customizable options.

Superna Media Server

The Superna Media Server software allows you to turn every PC on your home network into a UPnP™ compatible digital media server. Use Media Server's Media Manager to select your favorite photos, music HD quality videos and even RSS feeds and stream them to any PC, ControlBox or Media Center device. Seamlessly integrate with Microsoft Windows Media® Player 11, Musicmatch and other popular UPnP based media servers. Enjoy your multimedia files in the comfort of your living room or theater utilizing the quality output of your TV or stereo.
