

Touch Panel 8

The Superna Touch Panel is an elegant and cost effective solution for controlling the Digital Home. Superna's Touch Panel offers you a fully featured, affordable, sophisticated Touch Panel that will be a stunning addition to any home. Place it in a convenient location, plug it into your network, and with the push of a button, control your entire home. Using Superna's software solutions, the Touch Panel's interface can be completely customized, your only limit is your imagination.

The Superna mission is to create standards based software and hardware products that will make home automation accessible and affordable to everyone. Superna is committed to exceeding the expectations of our customers and to continuing our pioneering spirit by developing the latest products, systems and services. With Superna, everything is under control!
